Book Descriptions:

bounty hunter pioneer ex metal detector manual

The most difficult The detector powers on a This detector is for outdoor use only. Many If conducting an indoor demonstration, Most importantly, review the QuickStart Demo The most difficult aspects of metal detecting have been automated. However if you are new to the hobby, we strongly recommend that you 1 Adjust the Sensitivity to a low setting in the event of false signals. Loosen both Locking Collars by rotating 100% counterclockwise. Insert the Upper Stem into the SRod and click Silver Button into hole. Position the Lower Stem with the Silver Button toward the back. Using the Bolt and Knurled Knob, attach the Searchcoil to the Lower Stem. IMPORTANT Your Pioneer EX metal detector requires two 9Volt ALKALINE batteries. Follow these steps to install the batteries. Carefully remove the battery compartment door by pressing the release clip on the right side of the door. Position the Detector a. Place the detector on a table, with the searchcoil hanging over the edge. or better, have a friend hold the detector, with the coil off the ground All display indicators will illuminate momentarily The inverted pyramid depthselection indicator on the right of the display will stay illuminated. The detector will begin to beep erratically and operate unreliably if continuing use with discharged batteries. To save on batteries, check each battery individually, as the two batteries can discharge at different rates. When LOW BATTERY illuminates, it is possible that only one of the batteries requires replacement. It is designed for those who are new to the hobby providing maximum basic target discrimination, while requiring minimal operator adjustment. DEPTH SELECT With each press of the DEPTH. SAND Dry beach sands are no problem for the Pioneer EX. Therefore, we have incorporated an audio feedback mechanism to alert the user to the nature of buried objects. <http://www.flavorsofindiaflorida.com/userfiles/cormen-algorithms-solution-manual.xml>

This audio feedback system first alerts the user to the presence and classification of objects, whose nature and location can be confirmed using the LCD display. While your Pioneer EX contains circuitry to eliminate the signals caused by most naturally occurring ground minerals, 100% of all ground conditions cannot be anticipated. Never swing the coil like a pendulum. It is important to sweep the objects by the nature of the detector's coil at a consistent speed over the response. Find coins where people congregate frequently. Many detectorists revisit the same areas again and again to find a neverending treasure trove as people continue to lose valuables every day. Parks, fairgrounds, and play areas are good choices. TPKITW Stereo Headphones Use with Bounty Hunter metal detectors. HEADW Pinpointer Pinpoints the exact location of buried metal objects. If you want NextDay, we can save the other items for later. Amazon calculates a product's star ratings based on a machine learned model instead of a raw data average. The model takes into account factors including the age of a rating, whether the ratings are from verified purchasers, and factors that establish reviewer trustworthiness. Please try again later. Travis Crow 1.0 out of 5 stars No where in the description does it say does not come with pin pointer or bag. VERY deceiving post!!! Picture showed bag and pinpoint which I believed came with it, once I received it those items weren't included. This is what she had been talking about for years, and this year she was a very surprised and happy woman. We will take it outside as soon as the ice off the ground and check it out, then in the spring head to the Jersey Shore to give it a real try out.
